Gower Handbook of People in Project Management

Dennis Lock and Lindsay Scott

The Gower Handbook of People in Project Management is a unique and rich compilation of over 60 chapters about project management roles and the people who sponsor, manage, work in or are otherwise important to project success.

With Lindsay Scott's expert knowledge and experience in this field and Dennis Lock's contributions and meticulous editing, the Handbook is a complete guide to the various human dimensions involved in projects. It covers everyone involved in projects – the stakeholders – including those funding or sponsoring the project and those involved in its delivery; the people-issues that are specific to different sectors of the organization (public, private and third sector); the organization of people, both real and virtual; the different roles associated with projects; the relationship between people and the project environment; the human behaviours and skills associated with working collaboratively; and the HR issues including all aspects of how to manage talent for projects.

About the Editors:

After working for a UK division of Hewlett-Packard, **Lindsay Scott** established PM recruitment specialists Arras People in 2002. She is careers column expert for PMI, contributes regularly to journals and broadsheets and is a frequent speaker. She is top project management social influencer in the social media and is a keen promoter of project and programme management offices. She markets the APM's PMO specific interest group.

Dennis Lock is a prolific and successful management writer whose career has included management positions in defence, heavy engineering and mining. He has also conducted consultancy assignments in the UK and overseas. More recently Dennis was an external lecturer in project management for the masters degree programmes of two English universities.
